THE WEATHER

The past week has one of very variable character. The middle of last week was hot and sunny, but on Friday a cold wind blew up from the north and rain began to fall in the evening and fell off and on heavily until Sunday morning. It was accompanied by a very low temperature.

During Sunday night and tomorrow morning a slight but distinct touch of frost occurred, which allowed vegetable gardens but does not seem to have harmed the grain. Rain fell again in Red Deer on Monday afternoon and it looked at nightfall as if there might be more frost but this did not come on, and Tuesday again the temperature warming up and the day gradually becoming sunny and clear.

At Rocky Mountain House a little snow fell on Saturday and at Nordegg in the mountains, over a foot of snow fell. This weather has delayed harvesting and caused acute anxiety for the safety of the grain.

It may be of interest, now that the risk question is again to the fore, to note that the weather has been very variable and also engaged on a similar pattern and has been giving tenders.

The "Vegetable Grower" gives tenders as follows:
J. E. Edwards, Calgary \$ 9,917.00
E. A. Anderson, Alberta 5,966.00
William Brown and Co., Edm. 13,250.00
McDonald Bros., Calgary 13,250.00
The High River risk is stated to have cost less than \$8,000.00.

The rains of the last week have caused the grain to fill and ripen quickly. A number of the farmers are now cutting before the sun dries it. You can hear the hum of the binder on all sides although the weather has been very depressing. However, we shall have better in the future.

The garden truck was nipped Sunday night by frost.

HOGS

The Calgary market during the past week has been very quiet with receipts barely large enough to establish a market. There was no market Wednesday. Ten per cent premium is being paid for bacon.

Quotations at Edmonton have dropped another 15c in the last week and thick smooths are selling at \$12.75 and cars, with a 10 per cent premium being paid for bacon.

SHEEP
Receipts still continue to be light on the Calgary market and prices are unchanged. Edmonton handled a few more shipments than they have done in previous weeks. Quotations are said to be steady.

GRAIN
Prices on the exchange at Winnipeg

are unsteady, being up one day and down the next. Cutting will be general throughout the province, it is expected, by next week. First shipment of the 1925 crop arrived in Calgary on Monday, which shows that the season will be fully a fortnight ahead of last year.

not as firm as it was, but shipments are still being made. The United Kingdom and the United States have been the two leading importers of Canadian butter this year. Dairying Butter—Hardly any shipments are being received. Farmers are too busy with harvest to send any in and they need a larger supply at home. Creameries—Values in Manitoba have advanced

at the centralizers to 34c, which now puts them in line with northern Saskatchewan. Alberta still paying 35c above this level. Receipts have fallen off about 30 per cent lately caused by thrashing season. Cheeses—No change has been made in prices. Lees cheese was shipped to U.S. in the month of June than there was in previous months. Export market is still steady, and prices are building.

EGGS—POULTRY
Eggs—This market is handling very few deliveries, for the hens are beginning to moult and have practically gone on strike. Large supplies are in storage, which should help to keep prices at a fairly steady level during the winter months. Poultry—Prices on broilers have been cut 2c in the

last week, and nearly all row have fallen off 1c. The supplies are fairly heavy. Large number of hens moving in spite of the slow market.

HAY

Lighter receipts are the feature of the market this week. Dealers say that they are not expecting a very active time until harvesting is over. Values are unchanged. The demand

POTATOES

Receipts on the Calgary market are becoming heavier each week. Dealers are not bothering much about shipments from the coast for the local supplies can handle the demand. The market has a downward tendency.

HIDES

Poorer quality skins are beginning to arrive on the markets and the tanners have developed a don't-care attitude. Prices are unchanged.

WOOL

Quotations are still holding at 20c to 26c f.o.b. Calgary. The eastern market is finding trading rather quiet and in some lines quotations have

THE EMPTY PULPIT

The Edmonton Journal published the following poem, which may not be without interest in Red Deer. Perhaps you'd like to know that not many moons ago a meeting of the church was called to see if they should strike a plan to call some type of man on whom the church could happily agree.

"The man I think to call should not be short or tall And be single," said Miss Ella May De Brown.

Another lady said: "Of course, he must be wed, But no children should he have to rove the town."

Up a deacon etern arose, Wiped his glasses and his nose— Said: "The man to guide our congregation here Must be dignified and soulful, A student, yet not doleful; No Joker, but attractive; full of cheer."

"Denominations not of ours," Said Mr. Samuel Powers, "He must not countenance, yet friendly be. He must be a real good mixer, A spiritualist, not a fact; Also noted for his popularity."

Quoth an influential surgeon: "We need another Surgeon, One who makes our hearts to nobler deeds aspire; Yet not be too emphatic Or overly dramatic; Of that we all would very quickly tire."

"We want a man that's sprightly, Young, experienced and slightly; Not too handsome, for a scandal might arise. Love children—have no babies, Be attractive to the ladies. In short, be flawless in our churchly eyes."

Up rose an old man fearful, With eyes grown dim and tearful: "For perfection, what amount shall we now pay?"

The treasurer said quite tartly In a voice that rang out smartly: "Why, one hundred per cent, plenty, I should say."

CHURCH NOTICES

First Baptist Church, Sunday, August 30, 1925, 7:30 p.m., the evening service. Speaker—Mr. Arthur Hansell of Lacombe, who is enjoining Brandon this fall to prepare for the ministry. Mr. Hansell is a young man with winsome messages. A special invitation is extended to young people. Poplar Ridge—3 p.m., Sunday, August 31, Church service. Good singing—a home church—a cordial welcome. Rev. Ellis L. Jackson, Pastor.

Mr. Churchill will resume his duties on Sunday, September 6, when the usual morning and evening services will be conducted in the United Church.

It does not matter whether a man carries an Equitable Life policy or not. The loss is made just the same in one case the company pays for it. In the other the wife and babies pay for it. Who carries your risk? J. Baile, District Manager.

Gene Stratton Porter's last book "The Keeper of the Bees" has just been issued. Gaetz-Cornett Co. has it.

SUBJECTION OF WEEDS

In a statement on "Effective Methods of Controlling Weeds," Mr. E. S. Hopkins, dominion field husbandman, brings out three salient and important points. The first is that the most effective method of controlling weeds is thorough and frequent cultivation of the land. The second is that the basic principle in killing weeds which have underground rootstocks is to prevent their sending up top or above ground growth, and the third, the longer the delay in eradication the weeds the greater the amount of work that will eventually be necessitated.

One other point made by Mr. Hopkins in giving definite advice as to the subjection of couch grass, must and other weeds, that cannot be too greatly emphasized is that it is important to use at all time clean seed, grain, clover and grass seed.
